

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 6-K

**Report of Foreign Private Issuer
Pursuant to Rule 13a-16 or 15d-16 of
the Securities Exchange Act of 1934**

For the month of August 2016

Commission File Number: 001-37602

Fuling Global Inc.

(Registrant's name)

Southeast Industrial Zone, Songmen Town

Wenling, Zhejiang Province

People's Republic of China 317511

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.:

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K on paper as permitted by Regulation S-T Rule 101(b)(1):

Indicate by check mark if the registrant is submitting the Form 6-K on paper as permitted by Regulation S-T Rule 101(b)(7):

Explanatory Note:

This current report is filed to disclose the Registrant's quarterly financial statements and financial notes for the six months ended June 30, 2016. It satisfies (1) the Registrant's commitment in the underwriting agreement of IPO to file quarterly financial statements with the SEC using a Form 6-K., and (2) Nasdaq Listing Rule 5250(c)(2) which requires all Foreign Private Issuers to file a Form 6-K with an interim balance sheet and income statement as of the end of its second quarter.

FULING GLOBAL INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – ORGANIZATION AND DESCRIPTION OF BUSINESS

Fuling Global Inc. (“Fuling Global”) is a Cayman Island corporation established on January 19, 2015.

Total Faith Holdings Limited (“Total Faith”) is a wholly-owned subsidiary of Fuling Global formed in accordance with laws and regulations of the British Virgin Islands in April, 2004.

Fuling Global and its subsidiary Total Faith are holding companies whose only asset, held through a subsidiary, is 100% of the registered capital of Taizhou Fuling Plastics Co., Ltd. (“Taizhou Fuling”), as well as 49% ownership of Domo Industry Inc. (“Domo”).

Taizhou Fuling has three wholly-owned subsidiaries, Zhejiang Great Plastics Technology Co., Ltd. (“Great Plastics”), Direct Link USA LLC (“Direct Link”) and Fuling Plastic USA, Inc. (“Fuling USA”).

Fuling Global, Total Faith, Domo, Taizhou Fuling and Taizhou Fuling’s subsidiaries (herein collectively referred to as the “Company”) are engaged in the production and distribution of environmentally friendly plastic serveware in the People’s Republic of China (“PRC” or “China”), Europe and U.S. Products exported to the U.S. and Europe are primarily sold to major fast food restaurant chains and wholesalers.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation and Basis of Presentation

The Company’s unaudited condensed consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”) for interim financial information pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). The consolidated financial statements include the financial statements of Fuling Global, Total Faith, Domo, Taizhou Fuling and its subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation. In the opinion of management, all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation of the financial statements have been included.

These interim unaudited financial statements should be read in conjunction with the financial statements for the year ended December 31, 2015, included in the Company’s annual report on Form 20-F filed with SEC on March 30, 2016. The interim financial statements follow the same accounting policies and methods of computations as the audited financial statements for the year ended December 31, 2015. Interim results are not necessarily indicative of results to be expected for the full year.

In accordance with accounting standards regarding consolidation of variable interest entities (“VIE”), VIEs are generally entities that lack sufficient equity to finance their activities without additional financial support from other parties or whose equity holders lack adequate decision making ability. All VIEs with which the Company is involved must be evaluated to determine the primary beneficiary of the risks and rewards of the VIE. The primary beneficiary is required to consolidate the VIE for financial reporting purposes.

The Company has concluded that Domo is a VIE, based on the facts that Total Faith has a majority of voting rights on the board of directors and is obligated to absorb a majority of the risk of loss from Domo's economic performance. Based on our evaluation of the VIE, we are the primary beneficiary of its risks and rewards; therefore, we consolidate Domo for financial reporting purposes.

The following tables set forth the assets, liabilities, results of operations and changes in cash and cash equivalents of the VIE, which were included in the Company’s consolidated balance sheets, statements of comprehensive income and cash flows:

	June 30, 2016	December 31, 2015
Current assets	\$ 3,251,451	\$ 2,179,580
Non-current assets	(17,055)	-
Total assets	<u>3,234,396</u>	<u>2,179,580</u>
Third-party liabilities	(582,185)	(498,614)
Intercompany payables*	(2,112,168)	(1,412,380)
Total liabilities	<u>(2,694,353)</u>	<u>(1,910,994)</u>
Net assets	<u>\$ 540,043</u>	<u>\$ 268,586</u>

*Payables to Taizhou Fuling and Great Plastics are eliminated upon consolidation.

	For the three months ended		For the six months ended	
	June 30, 2016	June 30, 2015	June 30, 2016	June 30, 2015
Revenue	\$ 1,793,423	\$ 1,922,215	\$ 3,355,321	\$ 3,684,552
Net income	\$ 323,421	\$ 160,194	\$ 266,344	\$ 167,526

	For the six months ended	
	June 30,	June 30, 2015
	2016	
Net cash used in operating activities	\$ (339,018)	\$ (1,035,779)
Net cash provided by financing activities*	\$ 699,788	\$ 1,094,410
Net increase in cash and cash equivalents	\$ 360,770	\$ 58,631

* Intercompany financing activities are eliminated upon consolidation.

The Company has the power to direct activities of the VIE and can have assets transferred freely out of the VIE without restrictions. Therefore, the Company considers that there is no asset of VIE that can only be used to settle obligations of the respective VIE. The creditors of the VIE's third-party liabilities did not have recourse to the general credit of the primary beneficiary in normal course of business.

Non-controlling interests

Non-controlling interests result from the consolidation of 49% owned subsidiary Domo.

Reclassification

Certain prior year amounts have been reclassified for consistency with the current period presentation. These reclassifications had no effect on the reported results of operations.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates are based on information as of the date of the financial statements.

Significant estimates required to be made by management include, but are not limited to, the valuation of accounts receivable, inventories, advances to suppliers, useful lives of property, plant and equipment, intangible assets, and the recoverability of long-lived assets. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid investment instruments with an original maturity of three months or less from the date of purchase to be cash equivalents.

Restricted Cash

Restricted cash consists of cash equivalents used as collateral to secure short-term bank notes payable and bank borrowings. The Company is required to keep certain amounts on deposit that are subject to withdrawal restrictions. Upon the maturity of the bank acceptance notes and bank borrowings, the Company is required to deposit the remainder to the escrow account to settle the bank notes payable and bank borrowings. The notes payable and bank borrowings are generally short term in nature due to their short maturity period of three months to one year; thus, restricted cash is classified as a current asset.

As of June 30, 2016 and December 31, 2015, the Company had restricted cash of \$2,574,805 and \$2,129,162, respectively, of which \$1,791,144 and \$1,153,444, respectively, was related to the bank acceptance notes payable (see Note 9), and \$783,401 and \$955,426, respectively, was related to the letters of credit (see Note 11). The remaining \$260 and \$20,292, respectively, was related to other miscellaneous deposits made in bank.

Certificates of deposit

As of June 30, 2016 and December 31, 2015, the Company had certificates of deposit with original maturities of more than ninety days amounted to \$1,905,417 and \$3,186,892, respectively.

Accounts Receivable

Accounts receivable are recognized and carried at original invoiced amount less an estimated allowance for uncollectible accounts. The Company usually grants credit to customers with good credit standing with a maximum of 90 days and determines the adequacy of reserves for doubtful accounts based on individual account analysis and historical collection trends. The Company establishes a provision for doubtful receivables when there is objective evidence that the Company may not be able to collect amounts due. The allowance is based on management's best estimates of specific losses on individual exposures, as well as a provision on historical trends of collections. The provision is recorded against accounts receivables balances, with a corresponding charge recorded in the consolidated statements of income and comprehensive income. Actual amounts received may differ from management's estimate of credit worthiness and the economic environment. Delinquent account balances are written-off against the allowance for doubtful accounts after management has determined that the likelihood of collection is not probable.

Inventories

Inventories are stated at the lower of cost or market value. Costs include the cost of raw materials, freight, direct labor and related production overhead. The cost of inventories is calculated using the weighted average method. Any excess of the cost over the net realizable value of each item of inventories is recognized as a provision for diminution in the value of inventories.

Net realizable value is the estimated selling price in the normal course of business less any costs to complete and sell products.

Property, Plant and Equipment

Property and equipment are stated at cost. The straight-line depreciation method is used to compute depreciation over the estimated useful lives of the assets, as follows:

Items	Useful life
Property and buildings	10–20 years
Leasehold improvement	Lesser of useful life and lease term
Machinery equipment	3–10 years
Transportation vehicles	4–10 years
Office equipment and furniture	3–5 years

Expenditures for maintenance and repairs, which do not materially extend the useful lives of the assets, are charged to expense as incurred. Expenditures for major renewals and betterments which substantially extend the useful life of assets are capitalized. The cost and related accumulated depreciation of assets retired or sold are removed from the respective accounts, and any gain or loss is recognized in the statement of income in other income and expenses.

Intangible Assets

Intangible assets consist primarily of land use rights, trademark and patents. Under the PRC law, all land in the PRC is owned by the government and cannot be sold to an individual or company. The government grants individuals and companies the right to use parcels of land for specified periods of time. These land use rights are sometimes referred to informally as “ownership.” Land use rights are stated at cost less accumulated amortization. Intangible assets are amortized using the straight-line method with the following estimated useful lives:

Items	Useful life
Land use rights	50 years
Trademark	10 years
Patents	7-10 years

Impairment of Long-lived Assets

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If the estimated cash flows from the use of the asset and its eventual disposition are below the asset’s carrying value, then the asset is deemed to be impaired and written down to its fair value. There were no impairments of these assets as of June 30, 2016 and December 31, 2015.

Revenue Recognition

Revenue from product sales is recognized, net of estimated provisions for sales allowances, when the merchandise is shipped and title is transferred. Revenue is recognized when all four of the following criteria are met: (i) persuasive evidence that an arrangement exists (sales agreements and customer purchase orders are used to determine the existence of an arrangement); (ii) delivery of goods has occurred and risks and benefits of ownership have been transferred, which is when the goods are received by the customer at its designated location in accordance with the sales terms; (iii) the sales price is both fixed and determinable, and (iv) collectability is reasonably assured. Historically, sales returns have been minimal.

Income Taxes

The Company accounts for income taxes under ASC 740. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases.

Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period including the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

The provisions of ASC 740-10-25, "Accounting for Uncertainty in Income Taxes," prescribe a more-likely-than-not threshold for consolidated financial statement recognition and measurement of a tax position taken (or expected to be taken) in a tax return. This interpretation also provides guidance on the recognition of income tax assets and liabilities, classification of current and deferred income tax assets and liabilities, accounting for interest and penalties associated with tax positions, and related disclosures. The Company does not believe that there was any uncertain tax position at June 30, 2016 and December 31, 2015.

To the extent applicable, the Company records interest and penalties as a general and administrative expense. The statute of limitations for the Company's U.S. federal income tax returns and certain state income tax returns subject to examination by tax authorities for three years from the date of filing. As of June 30, 2016, the tax years ended December 31, 2010 through December 31, 2015 for the Company's PRC subsidiaries remain open for statutory examination by PRC tax authorities.

Value added tax ("VAT")

Sales revenue represents the invoiced value of goods, net of VAT. The VAT is based on gross sales price and VAT rates range up to 17%, depending on the type of products sold. The VAT may be offset by VAT paid by the Company on raw materials and other materials included in the cost of producing or acquiring its finished products. The Company recorded a VAT payable net of payments in the accompanying financial statements. Further, when exporting goods, the exporter is entitled to some or all of the refund of the VAT paid or assess. Since a majority of the Company's products are exported to the U.S. and Europe, the Company is eligible for VAT refunds when the Company completes all the required tax filing procedures.

All of the VAT returns of the Company have been and remain subject to examination by the tax authorities for five years from the date of filing.

Foreign Currency Translation

The Company's principal country of operations is the PRC. The financial position and results of its operations are determined using RMB, the local currency, as the functional currency. Our financial statements are reported using U.S. Dollars. The results of operations and the statement of cash flows denominated in foreign currency are translated at the average rate of exchange during the reporting period. Assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the applicable rates of exchange in effect at that date. The equity denominated in the functional currency is translated at the historical rate of exchange at the time of capital contribution. Because cash flows are translated based on the average translation rate, amounts related to assets and liabilities reported on the statement of cash flows will not necessarily agree with changes in the corresponding balances on the balance sheet. Translation adjustments arising from the use of different exchange rates from period to period are included as a separate component of accumulated other comprehensive income included in statement of changes in equity. Gains and losses from foreign currency transactions are included in the consolidated statement of income and comprehensive income.

The value of RMB against US\$ and other currencies may fluctuate and is affected by, among other things, changes in the PRC's political and economic conditions. Any significant revaluation of RMB may materially affect the Company's financial condition in terms of US\$ reporting. The following table outlines the currency exchange rates that were used in creating the consolidated financial statements in this report:

	<u>June 30, 2016</u>	<u>December 31, 2015</u>	<u>June 30, 2015</u>
Period-end spot rate	US \$1=RMB 6.64433	US \$1= RMB 6.4917	US \$1= RMB 6.1088
Average rate	US \$1=RMB 6.53637	US \$1= RMB 6.2288	US \$1= RMB 6.1254

Fair Value of Financial Instruments

ASC 825-10 requires certain disclosures regarding the fair value of financial instruments. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A three-level fair value hierarchy prioritizes the inputs used to measure fair value. The hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- Level 1 - Quoted prices in active markets for identical assets and liabilities.
- Level 2 - Quoted prices in active markets for similar assets and liabilities, or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

- Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The Company considers the recorded value of its financial assets and liabilities, which consist primarily of cash and cash equivalents, restricted cash, accounts receivable, advance to vendors, accounts payable, accrued expenses, advances from customers, notes payable to approximate the fair value of the respective assets and liabilities at June 30, 2016 and December 31, 2015 based upon the short-term nature of the assets and liabilities.

The Company believes that the carrying amount of the short-term borrowings approximates fair value at June 30, 2016 and December 31, 2015 based on the terms of the borrowings and current market rates as the rate is reflective of the current market rate.

Concentrations and Credit Risk

A majority of the Company's expense transactions are denominated in RMB and a significant portion of the Company and its subsidiaries' assets and liabilities are denominated in RMB. RMB is not freely convertible into foreign currencies. In the PRC, certain foreign exchange transactions are required by law to be transacted only by authorized financial institutions at exchange rates set by the People's Bank of China ("PBOC"). Remittances in currencies other than RMB by the Company in China must be processed through the PBOC or other China foreign exchange regulatory bodies which require certain supporting documentation in order to affect the remittance.

As of June 30, 2016 and December 31, 2015, \$6,458,963 and \$17,801,169 of the Company's cash and cash equivalents, certificates of deposit and restricted cash were on deposit at financial institutions in the PRC where there currently is no rule or regulation requiring such financial institutions to maintain insurance to cover bank deposits in the event of bank failure.

Substantially all of the Company's sales are made to customers that are located primarily in the USA and Europe. The Company's operating results could be adversely affected by the government policy on exporting business, foreign exchange rate fluctuation, and local market condition change. The Company has a concentration of its revenues and receivables with specific customers. For the six months ended June 30, 2016, one customer accounted for 13.6% of total revenue. For the six months ended June 30, 2015, two customers accounted for 13.8% and 10.9% of total revenue. For the three months ended June 30, 2016, one customer accounted for 10.4% of total revenue. For the three months ended June 30, 2015, one customer accounted for 17.5% of total revenue. As of June 30, 2016, two customers' account receivable accounted for 16.0% and 14.7% of the total outstanding accounts receivable balance. As of December 31, 2015, two customers' account receivable accounted for 29.8% and 10% of the total outstanding accounts receivable balance.

For the six months ended June 30, 2016, the Company purchased approximately 18% and 17% of its raw materials from two major suppliers. For the six months ended June 30, 2015, the Company purchased approximately 17% and 14% of its raw materials from two major suppliers. For the three months ended June 30, 2016, the Company purchased approximately 21% and 11% of its raw materials from two major suppliers. For the three months ended June 30, 2015, the Company purchased approximately 28% of its raw materials from one major supplier. As of June 30, 2016, advanced payments to two major suppliers accounted for 45% and 22% of the total advance payments outstanding. As of December 31, 2015, advanced payments to two major suppliers accounted for 49% and 10% of the total advance payments outstanding.

A loss of either of these customers or suppliers could adversely affect the operating results or cash flows of the Company.

Risks and Uncertainties

The major operations of the Company are located in the PRC. Accordingly, the Company's business, financial condition, and results of operations may be influenced by political, economic, and legal environments in the PRC, as well as by the general state of the PRC economy. The Company's operations in the PRC are subject to special considerations and significant risks not typically associated with companies in North America and Western Europe. These include risks associated with, among others, the political, economic and legal environment and foreign currency exchange. The Company's results may be adversely affected by changes in the political, regulatory and social conditions in the PRC. Although the Company has not experienced losses from these situations and believes that it is in compliance with existing laws and regulations including its organization and structure disclosed in Note 1, this may not be indicative of future results.

Recent Accounting Pronouncements

In January 2016, the FASB issued Accounting Standards Update (ASU) No. 2016-01, "Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities". The new guidance is intended to improve the recognition and measurement of financial instruments. The new guidance makes targeted improvements to existing U.S. GAAP by: (1) Requiring equity investments (except those accounted for under the equity method of accounting, or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. Requiring public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes; (2) Requiring separate presentation of financial assets and financial liabilities by measurement category and form of financial asset (i.e., securities or loans and receivables) on the balance sheet or the accompanying notes to the financial statements; (3) Eliminating the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet; and (4) Requiring a reporting organization to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk (also referred to as "own credit") when the organization has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. The new guidance is effective for public companies for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company does not expect this update will have a material impact on the Company's consolidated financial position, results of operations and cash flows.

In February 2016, the FASB issued ASU No. 2016-02, "Leases (Topic 842)" ("ASU 2016-02"), to increase the transparency and comparability about leases among entities. The new guidance requires lessees to recognize a lease liability and a corresponding lease asset for virtually all lease contracts. It also requires additional disclosures about leasing arrangements. ASU 2016-02 is effective for interim and annual periods beginning after December 15, 2018, and requires a modified retrospective approach to adoption. Early adoption is permitted. The Company is currently evaluating the impact of this new standard on its consolidated financial statements and related disclosures.

In March 2016, the FASB issued Accounting Standards Update No. 2016-06, Derivatives and Hedging (Topic 815): Contingent Put and Call Options in Debt Instruments. The amendments apply to all entities that are issuers of or investors in debt instruments (or hybrid financial instruments that are determined to have a debt host) with embedded call (put) options. The amendments clarify what steps are required when assessing whether the economic characteristics and risks of call (put) options are clearly and closely related to the economic characteristics and risks of their debt hosts, which is one of the criteria for bifurcating an embedded derivative. Consequently, when a call (put) option is contingently exercisable, an entity does not have to assess whether the event that triggers the ability to exercise a call (put) option is related to interest rates or credit risks. Public business entities must apply the new requirements for fiscal years beginning after December 15, 2016 and interim periods within those fiscal years. All entities have the option of adopting the new requirements early, including adoption in an interim period. If an entity early adopts the new requirements in an interim period, it must reflect any adjustments as of the beginning of the fiscal year that includes that interim period. The Company does not expect any material impact of this new standard on its consolidated financial statements.

In April 2016, the FASB released ASU 2016-09, Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. The ASU includes multiple provisions intended to simplify various aspects of the accounting for share-based payments. While aimed at reducing the cost and complexity of the accounting for share-based payments, the amendments are expected to significantly impact net income, EPS, and the statement of cash flows. Implementation and administration may present challenges for companies with significant share-based payment activities. The ASU is effective for public companies in annual periods beginning after December 15, 2016, and interim periods within those years. The Company is currently evaluating the impact of this new standard on its consolidated financial statements.

In April 2016, FASB issued Accounting Standards Update No. 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing. The amendments clarify the following two aspects of Topic 606: (a) identifying performance obligations; and (b) the licensing implementation guidance. The amendments do not change the core principle of the guidance in Topic 606. The effective date and transition requirements for the amendments are the same as the effective date and transition requirements in Topic 606. Public entities should apply the amendments for annual reporting periods beginning after December 15, 2017, including interim reporting periods therein (i.e., January 1, 2018, for a calendar year entity). Early application for public entities is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company is currently evaluating the impact of this new standard on its consolidated financial statements.

NOTE 3 – ACCOUNTS RECEIVABLE, NET

Accounts receivable consisted of the following:

	As of June 30, 2016	As of December 31, 2015
Trade accounts receivable	\$ 16,955,778	\$ 14,825,914
Less: allowances for doubtful accounts	(95,356)	(100,884)
Accounts receivable, net	<u>\$ 16,860,422</u>	<u>\$ 14,725,030</u>

NOTE 4 – INVENTORY, NET

Inventories consisted of the following:

	As of June 30, 2016	As of December 31, 2015
Raw materials	\$ 3,035,536	\$ 2,245,382
Work-in-progress	835,292	819,423
Finished goods	10,092,026	10,523,395
Inventory valuation allowance	(93,581)	(94,515)
Total inventory	<u>\$ 13,869,273</u>	<u>\$ 13,493,685</u>

NOTE 5 – PROPERTY, PLANT AND EQUIPMENT, NET

Property, plant and equipment, net consisted of the following:

	As of June 30, 2016	As of December 31, 2015
Property and Buildings	\$ 7,358,997	\$ 7,532,019
Leasehold improvement	1,722,562	1,722,562
Machinery and equipment	21,833,991	19,467,526
Automobiles	879,032	913,888
Office and electric equipment	733,914	736,808
Subtotal	32,528,496	30,372,803
Construction in progress	2,027,794	96,112
Less: accumulated depreciation	(9,879,687)	(8,912,049)
Property and equipment, net	<u>\$ 24,676,603</u>	<u>\$ 21,556,866</u>

Depreciation expense was \$1,245,666 and \$1,067,353 for the six months ended June 30, 2016 and 2015, respectively. Depreciation expense was \$635,892 and \$539,978 for the three months ended June 30, 2016 and 2015, respectively.

Construction in progress represents costs of construction incurred for the Company's new plant and equipment. The construction for the Company's new plant in U.S. has been completed and put in use in July 2015. The Construction in progress as of June 30, 2016 represents cost of construction for its facility expansion in China.

NOTE 6 – INTANGIBLE ASSETS, NET

Intangible assets, net consisted of the following:

	As of June 30, 2016	As of December 31, 2015
Land use rights	\$ 10,278,897	\$ 2,027,918
Trademark	6,953	7,117
Patents	4,949	5,065
Total	10,290,799	2,040,100
Less: accumulated amortization	(315,777)	(261,836)
Intangible assets, net	<u>\$ 9,975,022</u>	<u>\$ 1,778,264</u>

Amortization expense was \$60,947 and \$19,750 for the six months ended June 30, 2016 and 2015, respectively. Amortization expense was \$51,402 and \$10,603 for the three months ended June 30, 2016 and 2015, respectively.

Estimated future amortization expense for intangible assets is as follows:

Periods ending June 30,	Amortization expense
2017	\$ 45,819
2018	45,640
2019	45,596
2020	44,894
2021	44,799
Thereafter	9,748,274
	<u>\$ 9,975,022</u>

During the six months ended June 30, 2016, the Company paid RMB 55,131,750 (approximately \$8.3 million) for land use right in order to construct a new plant in Wenling to increase its production capacity. The Phase I of the construction has been started in April 2016 and the construction is expected to be completed by the end of 2016 and the commercial production is expected to commence in the first quarter of 2017.

NOTE 7 – PREPAYMENTS FOR CONSTRUCTION AND EQUIPMENT PURCHASE

As of June 30, 2016, the Company made following prepayments for its new plant in Taizhou, China:

	As of June 30, 2016	As of December 31, 2015
Prepayments for equipment purchase	\$ 879,394	\$ 2,003,400
Prepayments for land construction	3,386,346	-
	<u>\$ 4,265,740</u>	<u>\$ 2,003,400</u>

The Phase I of the construction has been started in April 2016 and the construction is expected to be completed by the end of 2016 and the commercial production is expected to commence in the first quarter of 2017.

NOTE 8 – SHORT-TERM BORROWINGS

Short-term borrowings represent amounts due to various banks and other companies normally due within one year. The principal of the borrowings are due at maturity. Accrued interest is due either monthly or quarterly.

Short-term borrowings consisted of the following:

		As of June 30, 2016	As of December 31, 2015
Agricultural Bank of China (“ABC”)	(1)	\$ 677,269	\$ 1,155,321
China Construction Bank (“CCB”)	(2)	1,911,404	1,232,343
China Merchants Bank (“CMB”)	(3)	2,253,561	1,000,293
PingAn Bank (“PAB”)	(4)	2,257,564	2,310,643
China Citic Bank (“CITIC”)	(5)	1,956,556	1,622,457
Industrial and Commercial Bank of China (“ICBC”)	(6)	3,978,174	4,079,145
Bank of China (“BOC”)	(7)	3,301,720	3,864,625
Total		<u>\$ 16,336,248</u>	<u>\$ 15,264,827</u>

- (1) In May 2015 and February 2016, Great Plastics entered into two short-term bank loan agreements with ABC for twelve months. One loan bears a variable interest rate based on the prevailing interest rate set by the People's Bank of China at the time of borrowing, plus 70.25 basis points while the other loan bears a variable interest rate that equals to 130% of the prevailing interest rate. The effective rates are 5.0% and 5.06% per annum, respectively. The loans were guaranteed by the assets of a third party guaranty company and a shareholder of the Company.

In January and May 2015, Great Plastics entered into two short-term bank loan agreements with ABC for twelve and six months, respectively. The loans bear a variable interest rate based on the prevailing interest rate set by the People's Bank of China at the time of borrowing, plus 30 basis points. The effective rates were 5.06% and 5.58% per annum, respectively. The loans were guaranteed by the assets of Great Plastics, a third party guaranty company and a shareholder of the Company.

- (2) In February and March 2016, Taizhou Fuling entered into two loan agreements with CCB for total of \$1.25 million for five and four months respectively. The loans bear fixed interest rate of 4.57% and 2.88%, respectively.

In July 2015, Taizhou Fuling entered into a short term bank loan agreement with CCB for \$1,232,343 for twelve months. The loan bears interest rate that equals to China's one year loan prime rate, plus 29.25 base points. The effective interest rate is 5.14% per annum.

These loans are guaranteed by the Company's principal shareholders and Zhejiang Special Plastics Technology Co., Ltd. ("Special Plastics"), an affiliated company owned by a shareholder of the Company. In addition, the Company has pledged land use rights, properties and machinery equipment of Taizhou Fuling as collaterals for the loans outstanding as of June 30, 2016 and December 31, 2015.

- (3) In January and March and April 2016, Taizhou Fuling entered into three short-term bank loan agreements with CMB for approximately \$2.26 million in total for eight, ten and five months, respectively. The first two loans bear variable interest rate based on the prevailing interest rate set by the People's Bank of China at the time borrowing, plus 179 and 10.25 basis points, respectively. The third loan bears a variable interest rate based on published six-month London Interbank Offered Rate ("LIBOR"), plus 60 basis points. The effective rates were 6.09% and 5% and 1.10% per annum, respectively.

In October and December 2015, Taizhou Fuling entered into two short-term bank borrowing agreements for approximately \$1.0 million (RMB 6.5 million) with CMB for six months. The loan bears a variable interest rate based on published six-month London Interbank Offered Rate ("LIBOR"), plus 60 basis points. The effective rates were 1.13% and 1.42% per annum, respectively. The loans are guaranteed by Special Plastics and Taizhou Fuling's general manager and Chair.

- (4) In March 2016, Great Plastics entered into three short-term bank borrowing agreements with PAB with a total amount of \$2,257,564 for six months. These loans bear a variable interest rate based on the prevailing interest rate set by the People's Bank of China at the time of borrowing, plus 30% of the prevailing interest rate. The effective rate is 5.98%. The loans are guaranteed by the assets of Great Plastics.

In March 2015, Great Plastics entered into three short-term bank borrowing agreements with PAB with a total amount of \$2,310,643 for six months to one year. The effective rates were 6.4%, 7.06% and 6.8% per annum, respectively. The loans were also guaranteed by the assets of Great Plastics.

- (5) During the year of 2015, Taizhou Fuling and Great Plastics, entered into a series of short-term bank borrowing agreements with CITIC. The terms of the loans are four to twelve months. The interest rate was equal to three-month of LIBOR. The loans were fully repaid on March 17, 2016.

In January 2016, Taizhou Fuling entered into loan agreement with CITIC for \$1,204,034 for ten months, bearing a variable interest rate based on the prevailing interest rate set by the People's Bank of China at the time of borrowing, plus 135.5 base points. The effective rates were 5.57% per annum, respectively. The loan is guaranteed by Taizhou Fuling's general manager.

In April 2016, Great Plastics entered into a loan agreement with CITIC for \$752,521 for six months, bearing a variable interest rate based on the prevailing interest rate set by the People's Bank of China at the time of borrowing, minus 90 base points. The effective rates were 5.1% per annum, respectively. The loan is guaranteed by Special Plastics, Taizhou Fuling's general manager and Chair.

- (6) In February 2016, Taizhou Fuling entered into a loan agreement with ICBC for \$593,000 for five months, with fixed interest rate of 3.5%. In April 2016, Taizhou Fuling entered into a loan agreement with ICBC for \$677,269 for five months, bearing a variable interest rate based on the prevailing interest rate set by the People's Bank of China at the time of borrowing, plus 161.6 base points. The effective rate was 5.92% per annum. During 2015, Taizhou Fuling entered into a series of short-term bank borrowing agreements with ICBC. The terms of the loans were five months to one year, with fixed interest rates ranging from 2.33% to 6.16% per annum. These loans were guaranteed by the shareholders of Fuling Global. In addition, the Company has pledged the land use rights and properties as collateral.

- (7) During the first two quarters in 2016 and the year ended December 31, 2015, Taizhou Fuling and Great Plastics entered into a series of short-term bank borrowing agreements and other financing agreements with BOC. The terms of the loans are three to twelve months, with fixed interest rates based on LIBOR (for loans dominated in USD) or prime loan rates issued by People's Bank of China (for loans dominated in RMB), plus certain base points. The effective interest rates vary from 1.56% to 5.9% per annum. The loans to Taizhou Fuling are guaranteed by Great Plastics and Taizhou Fuling's general manager. The loans to Great Plastics are guaranteed by Taizhou Fuling's general manager and Chair.

As of June 30, 2016 and December 31, 2015, land use rights in the amount of \$1,468,830 and \$1,499,417, property and buildings in the amount of \$4,282,602 and \$4,378,554 and equipment in the amount of \$5,115,988 and \$5.2 million were pledged for the bank loans, respectively.

NOTE 9 – BANK NOTES PAYABLE

Short-term bank notes payables are lines of credit extended by banks that can be endorsed and assigned to vendors as payments for purchases. The notes payable are generally payable within six months. These short-term notes payable are guaranteed by the bank for their full face value. In addition, the banks usually require the Company to deposit a certain amount of cash (usually range from 30% to 100% of the face value of the notes) at the bank as a guarantee deposit, which is classified on the balance sheet as restricted cash.

The Company had the following bank notes payable as of June 30, 2016:

	June 30, 2016
ICBC, due various dates from April 12, 2016 to September 30, 2016	\$ 2,409,769
CMBC, due September 28, 2016	668,088
ABC, due August 26, 2016	400,124
Total	<u>\$ 3,477,981</u>

The Company had the following bank notes payable as of December 31, 2015:

	December 31, 2015
ICBC, due various dates from January 17, 2016 to June 23, 2016	\$ 2,409,055
CITIC, due various dates from January 28, 2016 to June 29, 2016	430,728
Total	<u>\$ 2,839,783</u>

As of June 30, 2016 and December 31, 2015, \$1,791,144 and \$1,153,444 cash deposits were held by banks as a guaranty for the notes payable, respectively. In addition, as of June 30, 2016 and December 31, 2015, notes payable totaling \$2,409,769 and \$2,409,055 were secured by the personal properties of the Company’s principal shareholders and third party individuals, respectively.

NOTE 10 – INCOME TAXES

The Company is subject to income taxes on an entity basis on income arising in or derived from the tax jurisdiction in which each entity is domiciled.

Fuling Global and Total Faith are both offshore holding companies and are not subject to tax on income or capital gains under the laws of the Cayman Islands and British Virgin Islands, respectively.

Taizhou Fuling and Great Plastics are incorporated in the PRC and are subject to PRC income tax, which is computed according to the relevant laws and regulations in the PRC. Under the Corporate Income Tax Law of the People's Republic of China, corporate income tax rate applicable to all companies, including both domestic and foreign-invested companies, is 25%. Taizhou Fuling was recognized as a High-technology Company by Chinese government and subject to a favorable income tax rate of 15% from year 2012 to 2015. The Company is currently renewing its certificate of High-technology Company. Before the application is approved, the applicable income tax rate is 25%. The 15% tax rate is retroactive.

Domo, Fuling USA and Direct link are incorporated in the United States and subject to the U.S. federal and state income tax.

The following table summarizes income (loss) before income taxes and non-controlling interest allocation:

	For the six months ended June 30, 2016	For the six months ended June 30, 2015
United States	\$ (1,177,033)	\$ 246,257
Foreign	7,663,875	4,812,479
Total	\$ 6,486,842	\$ 5,058,736

Significant components of the income tax provision were as follows:

	For the six months ended June 30, 2016	For the six months ended June 30, 2015
Current tax provision		
United States	\$ -	\$ -
Foreign	1,060,636	745,068
Total	\$ 1,060,636	\$ 745,068

	For the six months ended June 30, 2016	For the six months ended June 30, 2015
Deferred tax expense (benefit)		
United States	\$ (132,093)	\$ -
Foreign	-	-
Total	\$ (132,093)	\$ -

The deferred tax expense (benefit) is the change of deferred tax assets and deferred tax liabilities resulting from the temporary difference between tax and U.S. GAAP. Our operations in the U.S. have incurred a cumulative net operating loss of approximately \$2,131,000 and \$1,576,000, respectively, as of June 30, 2016 and December 31, 2015, which may be available to reduce future taxable income. This carry-forward will expire if is not utilized by 2035. Our deferred tax assets were primarily the result of US net operating loss.

As of each reporting date, the management considers evidence, both positive and negative, that could affect its view of the future realization of deferred tax assets. On the basis of evaluation, a valuation allowance of \$451,345 was recorded against our gross deferred tax asset balance of \$902,690 at June 30, 2016, and a valuation allowance of \$319,252 was recorded against our gross deferred tax asset balance of \$638,504 at December 31, 2015. The amount of the deferred tax asset considered realizable, however, could be adjusted if estimates of future taxable income during the carry-forward period are reduced or increased or if objective negative evidence in the form of cumulative losses is no longer present and additional weight may be given to subjective evidence such as our projections for growth.

The following table reconciles the statutory rates to the Company's effective tax rate:

	June 30, 2016	June 30, 2015
U.S. Statutory rates	34.0%	34.0%
Foreign income not recognized in the U.S.	(34.5)	(33.4)
Foreign income tax rate	25.0	25.0
Effect of favorable income tax rate in certain entity in PRC	(13.0)	(8.7)
R&D tax credit (1)	-	(1.3)
Change in valuation allowance	2.1	-
Non-taxable permanent difference (2)	0.7	(0.9)
Effective tax rate	<u>14.3%</u>	<u>14.7%</u>

- (1) According to PRC tax regulation, 150% of current year R&D expense approved by local tax authority could be deducted from taxable income.
- (2) It represents expenses incurred by the Company that were not deductible for PRC income tax and income (loss) generated in countries with no income tax obligations.

NOTE 11 – COMMITMENTS AND CONTINGENCIES

Rent commitment

The Company's subsidiary Fuling USA leases manufacturing facilities under operating leases. Operating lease expense amounted to \$276,544 and \$204,382 for the six months ended June 30, 2016 and 2015, respectively. Operating lease expense amounted to \$181,930 and \$107,416 for the three months ended June 30, 2016 and 2015, respectively.

Future minimum lease payments under non-cancelable operating leases are as follows:

<u>Twelve months ended June 30,</u>	
2017	\$ 673,280
2018	685,229
2019	697,810
2020	710,456
2021	723,543
Thereafter	1,797,544
Total	\$ 5,287,862

Letters of Credit

As of June 30, 2016 and December 31, 2015, the Company had \$5,245,550 and \$5,664,249 outstanding in trade letters of credit

NOTE 12 – RELATED PARTY TRANSACTIONS

The Company rents space from one of their related parties. For the six months ended June 30, 2016 and 2015, the total rent expense was \$28,199 and \$30,091, respectively. For the three months ended June 30, 2016 and 2015, the total rent expense was \$14,108 and \$6,535, respectively.

NOTE 13 – EQUITY

Statutory reserve

The Company is required to make appropriations to certain reserve funds, comprising the statutory surplus reserve and the discretionary surplus reserve, based on after-tax net income determined in accordance with generally accepted accounting principles of the PRC ("PRC GAAP"). Appropriations to the statutory surplus reserve are required to be at least 10% of the after-tax net income determined in accordance with PRC GAAP until the reserve is equal to 50% of the entity's registered capital. Appropriations to the surplus reserve are made at the discretion of the Board of Directors. As of June 30, 2016 and December 31, 2015, the balance of statutory reserve was \$3,529,168 and \$2,868,844, respectively.

Initial public offering ("IPO")

On October 26, 2015, the SEC declared effective the Company's registration statement on Form F-1 ("IPO Registration Statement"). Pursuant to this IPO Registration Statement, along with the accompanying prospectus, the Company registered an offering of 4,000,000 shares of ordinary shares and up to 600,000 additional ordinary shares if the over-subscription option is exercised in full.

On November 2, 2015, the Company issued 4,000,000 shares at a price of \$5.00 per share. On November 4, 2015, the Company issued 38,423 shares pursuant to the over-subscription option granted to the underwriters according to the IPO Registration Statement. On November 4, 2015, the Company closed its initial public offering of 4,038,423 ordinary shares at a price of \$5.00 per share for gross proceeds of \$20,192,115 and net proceeds of \$18,594,972.

After its IPO on November 2, 2015, the Company granted 15,705 shares and 12,000 shares collectively to its Chief Financial Officer and three directors, respectively, pursuant to the CFO employment agreement and director engagement letters the Company entered into in September 2015 and August 2015, respectively. \$69,262 was recorded as stock based compensation expense for the period ended June 30, 2016.

NOTE 14– SEGMENT REPORTING

ASC 280, “Segment Reporting”, establishes standards for reporting information about operating segments on a basis consistent with the Company’s internal organizational structure as well as information about geographical areas, business segments and major customers in financial statements for details on the Company’s business segments. The Company uses the “management approach” in determining reportable operating segments. The management approach considers the internal organization and reporting used by the Company’s chief operating decision maker for making operating decisions and assessing performance as the source for determining the Company’s reportable segments. Management, including the chief operating decision maker, reviews operation results by the revenue of different products. Based on management’s assessment, the Company has determined that it has only one operating segments as defined by ASC 280.

The following table presents revenue by major products for the six and three months ended June 30, 2016 and 2015, respectively.

	For the six months ended	
	June 30, 2016	June 30, 2015
Cutlery	\$ 26,391,059	\$ 27,435,098
Straws	4,522,495	5,440,386
Cups and plates	11,315,234	11,101,998
Others	2,943,403	1,767,873
Total	\$ 45,172,191	\$ 45,745,355

	For the three months ended	
	June 30, 2016	June 30, 2015
Cutlery	\$ 14,710,583	\$ 14,930,326
Straws	2,427,869	2,919,660
Cups and plates	5,811,494	6,233,220
Others	1,644,426	1,023,633
Total	\$ 24,594,372	\$ 25,106,839

The following table presents revenue by geographic areas for the six and three months ended June 30, 2016 and 2015, respectively.

	For the six months ended	
	June 30, 2016	June 30, 2015
Revenue from United States	\$ 42,004,083	\$ 43,657,404
Revenue from Europe	1,449,642	926,376
Revenue from Canada	493,400	469,245
Revenue from China	778,382	70,194
Revenue from other foreign countries	446,684	622,136
Total	<u>\$ 45,172,191</u>	<u>\$ 45,745,355</u>

	For the three months ended	
	June 30, 2016	June 30, 2015
Revenue from United States	\$ 22,529,161	\$ 23,961,410
Revenue from Europe	1,015,155	528,284
Revenue from Canada	288,661	296,581
Revenue from China	433,505	70,194
Revenue from other foreign countries	327,890	250,370
Total	<u>\$ 24,594,372</u>	<u>\$ 25,106,839</u>

Long-lived assets of \$36,309,270 and \$2,830,493 were located in China and the United States, respectively, as of June 30, 2016. Long-lived assets of \$22,979,974 and \$2,584,056 were located in China and the United States, respectively, as of December 31, 2015.

NOTE 15 – SUBSEQUENT EVENTS

In July 2016, the Company repaid approximately \$3.1 million bank loans and \$0.6 million notes payable that became due. The Company also borrowed approximately \$2.3 million bank loans as well as approximately \$0.3 million notes payable from various banks in China. All the loans and notes payable are short term in nature and guaranteed by its shareholders, related parties and third parties.

Title: Chief Financial Officer

Fuling Global Inc. Reports First Half-Year and Second Quarter 2016 Financial Results

Company to Host Earnings Conference Call on Tuesday, August 16, 8:00 am ET

ALLENTOWN, Pa., August 15, 2016 /PRNewswire/ -- Fuling Global Inc. (NASDAQ: FORK) ("Fuling Global" or the "Company"), an environmentally friendly specialized producer and distributor of plastic servicerware, with precision manufacturing facilities in both the U.S. and China, today announced its financial results for the three and six months ended June 30, 2016.

Mr. Xinfu Hu, Chief Executive Officer of Fuling Global, commented, "We continued to execute well with sales volume crossing the 10,000-ton mark for the first time in company history to 10,709 tons for the second quarter, highlighting strong demand for our products across all major product categories. Gross margin of 29.8% improved significantly from the prior quarter and was essentially unchanged from a year ago. Despite a slight dip in revenues driven by decrease in average selling price ("ASP") in connection with drop in oil prices, net income attributable to our stockholders increased by 56.3% to \$4.67 million for the second quarter, benefitting from \$1.82 million in local government subsidy income."

Ms. Guilan Jiang, Chairwoman of Fuling Global, added, "With all of our factories running near full capacity, we are facing increasing challenges to expand our production capacity promptly to meet the increasing demand for our products. Following the \$10.24 million purchase of a 32.86-acre land parcel in April, we broke ground for the construction of a new factory in Wenling City in the second quarter. Phase I construction is expected to complete by the end of this year with commercial production to commence in the first quarter of 2017. Our Allentown factory continues to ramp, now with 12 straw machines up and running. With increasing orders from existing customers and orders from new customers, our Allentown factory is on track to reach \$5.5 million annual revenue run rate in the third quarter this year."

Second Quarter of 2016 Financial Highlights

(\$ millions, except per share data)	For the Three Months Ended June 30,		
	2016	2015	% Change
Revenues	\$24.59	\$25.11	-2.0%
Gross profit	\$7.33	\$7.47	-1.9%
Gross margin	29.8%	29.8%	0.0%
Operating income	\$3.72	\$3.97	-6.4%
Operating margin	15.1%	15.8%	-0.7%
Net income attributable to Fuling Global	\$4.67	\$2.99	56.3%
Diluted earnings per share	\$0.30	\$0.26	15.9%

- Net income attributable to Fuling Global increased by 56.3% to \$4.67 million, or \$0.30 per basic and diluted share, for the three months ended June 30, 2016 from \$2.99 million, or \$0.26 per basic and diluted share, for the same period of last year. The increases in net income and earnings per share were primarily due to a \$1.82 million subsidy income received from local government which included a one-time government incentive of approximately \$1.5 million for breaking ground on our new factory in Wenling City.
- Revenues decreased by 2.0% to \$24.59 million for the three months ended June 30, 2016 with increase in sales volume offset by decrease in blended average selling price ("ASP").
- Total sales volume increased by 21.2% to 10,709 tons for the three months ended June 30, 2016 from 8,834 tons for the same period of last year. The increase in total sales volume was across all product categories.
- Blended ASP decreased by 19.2% to \$2.30 per kilogram for the three months ended June 30, 2016 from \$2.84 per kilogram for the same period of last year. The decrease in ASP was across all product categories and in line with the decrease in crude oil prices.
- Gross profit decreased by 1.9% to \$7.33 million for the three months ended June 30, 2016 from \$7.47 million for the same period of last year. Gross margin was essentially unchanged at 29.8%.

Second Quarter 2016 Financial Results

Revenues

For the three months ended June 30, 2016, total revenues decreased by \$0.51 million, or 2.0%, to \$24.59 million from \$25.11 million for the same period of last year. Overall sales volume increased by 1,875 tons, or 21.2%, to 10,709 tons for the three months ended June 30, 2016 from 8,834 tons for the same period of last year. The increase in overall sales volume was across all product categories. Blended ASP decreased by \$0.54 per kilogram, or 19.2%, to \$2.30 per kilogram for the three months ended June 30, 2016 from \$2.84 per kilogram for the same period of last year. The decrease in ASP was across all product categories and in line with year-over-year change trend in crude oil prices. Cutlery, straws, cups and plates, and other products accounted for 59.8%, 9.9%, 23.7%, and 6.7% of total revenues for the three months ended June 30, 2016, compared to 59.5%, 11.6%, 24.8%, and 4.1% for the same period of last year, respectively.

On a geographical basis, sales in Fuling Global's largest market, the U.S., decreased by \$1.43 million, or 6.0%, to \$22.53 million for the three months ended June 30, 2016 from \$23.96 million for the same period of last year. Sales in Europe increased by \$0.49 million, or 92.2%, to \$1.02 million. Sales in China increased by \$0.36 million, or 516.9%, to \$0.43 million for the three months ended June 30, 2016. Sales in Canada was \$0.29 million for the three months ended June 30, 2016, down 2.7% from the same period of last year.

For the Three Months Ended June 30,

	2016		2015		Y/Y Change	
	Revenues (\$'000)	% of Total	Revenues (\$'000)	% of Total	Amount (\$'000)	%
U.S.	\$ 22,529	91.6%	\$ 23,962	95.4%	\$ (1,433)	-6.0%
Europe	1,015	4.1%	528	2.1%	487	92.2%
Canada	289	1.2%	297	1.2%	(8)	-2.7%
China	433	1.8%	70	0.3%	363	516.9%
Others	328	1.3%	250	1.0%	78	31.0%
Total	\$ 24,594	100.0%	\$ 25,107	100.0%	\$ (514)	-2.0%

Gross profit

Total cost of goods sold decreased by \$0.37million, or 2.1%, to \$17.26million for the three months ended June 30, 2016 from \$17.63 million for the same period of last year¹. Gross profit decreased by \$0.14 million, or 1.9%, to \$7.33 million for the three months ended June 30, 2016 from \$7.47 million for the same period of last year. Gross margin was 29.8% for the three months ended June 30, 2016, essentially unchanged from the same period of last year.

[1] Please note, certain expense items, primarily expenses associated with ocean freight, were previously reported as selling expenses and have been reclassified as cost of goods sold. As a result, cost of goods sold, gross profit, gross margin, selling expenses, and total operating expenses for 2015 have been adjusted retrospectively.

Operating income

Selling expenses decreased by \$0.31 million, or 17.4%, to \$1.45 million for the three months ended June 30, 2016 from \$1.76 million for the same period of last year. The decrease in selling expenses was due to decrease in ocean freight cost. General and administrative expenses increased by \$0.34 million, or 30.0%, to \$1.48million for the three months ended June 30, 2016 from \$1.14 million for the same period of last year. The increase in general and administrative expenses was due to professional fees related to being a public company as well as increase in administrative expenses at our Allentown facility. Research and development expenses increased by \$0.08 million, or 12.5%, to \$0.68 million for the three months ended June 30, 2016 from \$0.60 million for the same period of last year. As a result, total operating expenses increased by \$0.11 million, or 3.2%, to \$3.61 million for the three months ended June 30, 2016 from \$3.50 million for the same period of last year.

Operating income decreased by \$0.25million, or 6.4%, to \$3.72 million for the three months ended June 30, 2016 from \$3.97 million for the same period of last year. Operating margin was 15.1% for the three months ended June 30, 2016, compared to 15.8% for the same period of last year.

Income before income taxes

After adjustment for interest income and expenses, subsidy income and other non-operating income and expenses, income before income taxes increased by \$1.76 million, or 47.8%, to \$5.45 million for the three months ended June 30, 2016 from \$3.69 million for the same period of last year. The increase was primarily due to subsidy income of \$1.82million received in the second quarter of this year from local government.

Provision for income taxes was \$0.62 million for the three months ended June 30, 2016, compared to \$0.62 million for the same period of last year.

Net income

Net income increased by \$1.77 million, or 57.5%, to \$4.84 million for the three months ended June 30, 2016 from \$3.07 million for the same period of last year. After deduction of non-controlling interest, net income attributable to Fuling Global was \$4.67 million, or \$0.30 per basic and diluted share, for the three months ended June 30, 2016, compared to \$2.99 million, or \$0.26 per basic and diluted share, for the same period of last year.

Year-to-Date 2016 Financial Results

(\$ millions, except per share data)	For the Six Months Ended June 30,		
	2016	2015	% Change
Revenues	\$45.17	\$45.75	-1.3%
Gross profit	\$12.54	\$12.07	3.9%
Gross margin	27.8%	26.4%	1.4%
Operating income	\$4.81	\$5.32	-9.6%
Operating margin	10.6%	11.6%	-1.0%
Net income attributable to Fuling Global	\$5.42	\$4.23	28.2%
Diluted earnings per share	\$0.34	\$0.36	-4.9%

Revenues

For the six months ended June 30, 2016, total revenues decreased by \$0.57 million, or 1.3%, to \$45.17 million from \$45.75 million for the same period of last year. Overall sales volume increased by 2,411 tons, or 15.1%, to 18,338 tons for the six months ended June 30, 2016 from 15,927 tons for the same period of last year. The increase in overall sales volume was across all product categories. Blended ASP decreased by \$0.41 per kilogram, or 14.2%, to \$2.46 per kilogram for the six months ended June 30, 2016 from \$2.87 per kilogram for the same period of last year. ASPs for cutlery, straws, and cups and plates all decreased while others increased slightly year-over-year.

Cutlery, straws, cups and plates, and other products accounted for 58.4%, 10.0%, 25.0%, and 6.5% of total revenues for the six months ended June 30, 2016, compared to 60.0%, 11.9%, 24.3%, and 3.9% for the same period of last year, respectively.

On a geographical basis, sales in Fuling Global's largest market, the U.S., decreased by \$1.65 million, or 3.8%, to \$42.00 million for the six months ended June 30, 2016 from \$43.66 million for the same period of last year. Sales in Europe increased by \$0.52 million, or 56.5%, to \$1.45 million. Sales in China increased by \$0.71 million, or 1,008.9%, to \$0.78 million for the six months ended June 30, 2016. Sales in Canada was \$0.49 million for the six months ended June 30, 2016, up 5.1% from the same period of last year.

	For the Six Months Ended June 30,					
	2016		2015		Y/Y Change	
	Revenues (\$'000)	% of Total	Revenues (\$'000)	% of Total	Amount (\$'000)	%
U.S.	\$ 42,004	93.0%	\$ 43,658	95.4%	\$ (1,654)	-3.8%
Europe	1,450	3.2%	926	2.0%	523	56.5%
Canada	493	1.1%	469	1.0%	24	5.1%
China	778	1.7%	70	0.2%	708	1008.9%
Others	447	1.0%	622	1.4%	(175)	-28.2%
Total	\$ 45,172	100.0%	\$ 45,745	100.0%	\$ (573)	-1.3%

Gross profit

Total cost of goods sold decreased by \$1.04 million, or 3.1%, to \$32.64 million for the six months ended June 30, 2016 from \$33.68 million for the same period of last year. Gross profit increased by \$0.47 million, or 3.9%, to \$12.54 million for the six months ended June 30, 2016 from \$12.07 million for the same period of last year. Gross margin was 27.8% for the six months ended June 30, 2016, compared to 26.4% for the same period of last year.

Operating income

Selling expenses decreased by \$0.05 million, or 1.7%, to \$3.08 million for the six months ended June 30, 2016 from \$3.14 million for the same period of last year. The decrease in selling expenses was due to decrease in ocean freight. General and administrative expenses increased by \$0.87 million, or 32.5%, to \$3.55 million for the six months ended June 30, 2016 from \$2.68 million for the same period of last year. The increase in general and administrative expenses was due to professional fees related to being a public company as well as increase in administrative expenses at our Allentown facility. As we spent significant efforts and resources training new staff, testing machines, and streamlining production lines in the first half of this year, we expect more moderate increases in general and administrative expenses with increasing productivity and operating efficiency in the latter half of this year. Research and development expenses increased by \$0.16 million, or 17.3%, to \$1.09 million for the six months ended June 30, 2016 from \$0.93 million for the same period of last year.

As a result, total operating expenses increased by \$0.98 million, or 14.5%, to \$7.73 million for the six months ended June 30, 2016 from \$6.75 million for the same period of last year.

Operating income decreased by \$0.51 million, or 9.6%, to \$4.81 million for the six months ended June 30, 2016 from \$5.32 million for the same period of last year. Operating margin was 10.6% for the six months ended June 30, 2016, compared to 11.6% for the same period of last year.

Income before income taxes

After adjustment for interest income and expenses, subsidy income and other non-operating income and expenses, income before income taxes increased by \$1.43 million, or 28.2%, to \$6.49 million for the six months ended June 30, 2016 from \$5.06 million for the same period of last year. The increase was primarily due to higher subsidy income received from local government this year.

Provision for income taxes was \$0.93 million for the six months ended June 30, 2016, compared to \$0.75 million for the same period of last year.

Net income

Net income increased by \$1.24 million, or 28.9%, to \$5.56 million for the six months ended June 30, 2016 from \$4.31 million for the same period of last year. This increase was primarily due to: 1) \$1.70 million increase in subsidiary income; 2) \$0.47 million increase in gross profit; and 3) partially offset by \$0.98 million increase in operating expenses.

After deduction of non-controlling interest, net income attributable to Fuling Global increased by \$1.19 million, or 28.2%, to \$5.42 million for the six months ended June 30, 2016 from \$4.23 million for the same period of last year.

Basic and diluted earnings per share were each \$0.34 for the six months ended June 30, 2016, compared to \$0.36 for the same period of last year.

Financial Condition

As of June 30, 2016, the Company had cash and cash equivalents, restricted cash, and certificates of deposits of \$3.35 million, \$2.57 million, and \$1.91 million, respectively, compared to \$15.57 million, \$2.13 million, and \$3.19 million, respectively, at the end of 2015. Short-term borrowing and bank notes payable were \$16.34 million and \$3.48 million, respectively, as of June 30, 2016, compared to \$15.26 million and \$2.84 million, respectively, at the end of 2015.

Net cash used in operating activities was \$3.74 million for the six months ended June 30, 2016, compared to \$1.91 million for the same period of last year.

Net cash used in investing activities was \$9.93 million for the six months ended June 30, 2016, compared to \$2.42 million for the same period of last year. The Company spent \$10.24 million in purchasing a 32.86-acre land parcel for its newest factory in Wenling, China this April and received one-time subsidy income of approximately \$1.5 million from the Wenling government in association with the purchase.

Net cash provided by financing activities was \$1.47 million for the six months ended June 30, 2016, compared to \$4.60 million for the same period of last year.

Recent Update

On April 12, 2016, the Company announced that it has purchased a 32.86-acre land parcel for its newest factory in Wenling, China for approximately \$10.24 million. The Company anticipates that it will complete construction, equipment installation and testing and will ultimately commence commercial production in the new factory in the first quarter of 2017.

Correction

In our press release dated May 16, 2016, we incorrectly reported sales volume growth of 4.6% to 7,418 tons for the three months ended March 31, 2016, which should be 7.6% growth to 7,629 tons. In addition, in our press release dated March 31, 2016, we incorrectly reported sales volume growth of 30% for the year 2015, which should be 15% increase.

Earnings Conference Call

The Company will host its second quarter of 2016 financial results conference call at 8:00 am Eastern Time (5:00 am Pacific Time/8:00 pm Beijing Time) on Tuesday, August 16, 2016. To attend the call, please use the information below for either dial-in access or webcast access. When prompted on dial-in, ask for "Fuling Global Inc./ FORK".

Conference Call

Forward-Looking Statements

This press release contains information about Fuling Global's view of its future expectations, plans and prospects that constitute forward-looking statements. Actual results may differ materially from historical results or those indicated by these forward-looking statements as a result of a variety of factors including, but not limited to, risks and uncertainties associated with its application of IPO proceeds, its ability to raise additional funding, its ability to maintain and grow its business, variability of operating results, its ability to maintain and enhance its brand, its development and introduction of new products and services, the successful integration of acquired companies, technologies and assets into its portfolio of software and services, marketing and other business development initiatives, competition in the industry, general government regulation, economic conditions, dependence on key personnel, the ability to attract, hire and retain personnel who possess the technical skills and experience necessary to meet the requirements of its clients, and its ability to protect its intellectual property. Fuling

Global encourages you to review other factors that may affect its future results in Fuling Global's registration statement and in its other filings with the Securities and Exchange Commission.
